PROFESSIONAL SUMMARY

Software Engineer with 1+ years of experience in full-stack development using Node.js, Express.js, Django, React, Next.js, React Native, TypeScript, MongoDB, MySQL, and REST APIs. Proven experience delivering production-ready features, building scalable applications, and collaborating in agile product teams.

EXPERIENCE

Software Development Engineer I

CollegeDekho

Oct 2024 – Present

Gurugram, Haryana

- Developed and shipped features across the CollegeDekho Connect mobile chat app (React Native, Stream Chat SDK) and public-facing website (Next.js) used by millions of students; integrated Google Analytics to surface user behavior insights for internal stakeholders.
- Engineered an internal Electron + Node.js admin dashboard from scratch, enabling non-technical moderators to manage student groups, bulk-update members, and send polls — reducing manual operational overhead by 40%.
- Delivered 3+ content management dashboards into the CMS (React.js, Redux, Ant Design) with REST API connections and responsive UI components, improving content update efficiency across teams by 30%.

Full Stack Developer (Freelance)

Dental Facets

Aug 2024 – Feb 2025

Gurugram, Haryana

- Designed and launched the Dental Facets website from scratch using Next.js with multiple service pages and a W3Forms-integrated patient inquiry system, improving appointment booking accessibility for clinic patients.
- Delivered a fully responsive, SEO-optimized site that reduced bounce rate by ~15% and improved Google search visibility within 60 days of launch.

Software Engineer Intern

CollegeDekho

Mar 2024 – Sep 2024

Gurugram, Haryana

- Resolved multiple production bugs and shipped new features across the React.js-based CMS, reducing critical error reports by ~25% over 2 sprint cycles.
- Improved code maintainability across several frontend modules, streamlining onboarding and accelerating code review cycles within an agile workflow.

PROJECTS

Solvly | *Next.js, Node.js, Express.js, Redux, JWT, Tiptap, Tailwind CSS*

solvly.website

- Launched a full-stack community Q&A platform for software and IT professionals to ask questions, share opinions, and contribute knowledge — featuring rich text editing via Tiptap, JWT-based authentication, and avatar generation with Multiavatar.
- Architected a decoupled frontend/backend structure using Next.js and Express.js, with Redux for global state management and REST APIs powering all core platform interactions.

Gym & Fitness Website | *Next.js, Tailwind CSS, GSAP*

- Engineered a fully static gym promotional website with custom GSAP animations, CSS transitions, 3 interactive health calculators, and a health/exercise blog — focused on delivering a polished, high-performance UI.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C++, Python

Frontend: React.js, Next.js, React Native, Redux Toolkit, Tailwind CSS, Ant Design, CKEditor 5, Tiptap, GSAP

Backend & APIs: Node.js, Express.js, Django, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, PM2, Nginx, Oracle Cloud Infrastructure (OCI), JMeter, Blender

Other: Linux, Responsive Design, Web Performance Optimization

EDUCATION

GD Goenka University

Bachelor of Computer Applications (BCA)

St. Crispin's Sr. Sec. School

10th & 12th

Sohna, Haryana

Aug 2021 – May 2024

Gurugram, Haryana

Passed out 2021
